Moi!

Roskapostista löytyi WSEASin vastaus minun rt-pyyntöön. Eli tuosta listasta tai liitetiedostosta löytyy linkit artikkeleihin, jotka on julkaissut WSEASin julkaisuissa. Mukana linkit myös niihin kolmeen artsuun, joita ei itse löytänyt.

Kun olette saaneet artsut Theseukseen, niin kuittaatko rivit tehdyiksi myös K-aseman exceliin?

Dear Mrs. Tarja Laakkonen,

Thank you for contacting us.

It will be our pleasure to support your repository with any of the published articles.

Please feel free to send me a list with the papers title and the title of the proceeding/journal in order to collect them for you.

Dear Publisher

My name is Tarja Laakkonen and I represent the authors of Laurea University of Applied Sciences, Finland. Several authors from our organization (for example, Rauno Pirinen and Jyri Rajamäki) have published articles in your journals and proceedings during 2012-2017.

Laurea UAS aims to self-archive its personnel's articles to promote Open Access. Therefore, we would like to deposit/ self-archive full-text versions also from the articles which were originally published in your journals. The texts would be deposited in Theseus, the institutional repository of Laurea UAS. Theseus is a non-profit service, organized to serve the interests of the UAS's researchers. Theseus provides a centralized repository and online access to academic publications by researchers working in collaboration with the UAS. Full bibliographic information will be given for each article, as well as specific reference information for the original publishing context (more information about Theseus <https://www.theseus.fi/>).

Article versions which the author may self-archive in the repository of the Laurea UAS are:

1. The publisher's version/PDF (i.e. the published version of the article which is completely finished, including its layout).
2. The post-print version (i.e. the final draft post-refereeing, for which the layout has not yet been processed).

Thus I request for permission to self-archive those Laurea personnel's articles in the institutional repository, which were originally published in our journals during 2012-2017. Primarily we wish to deposit the final publisher's version. Please inform us, if the archiving is possible. If you need a list of articles which we are primarily interested in, please send me an e-mail, so I can provide the list.

Best regards
